Guidelines for the project and presentation in no particular order:

1. This project is a group work and every member should participate fully.
2. Submit the project name with a summary on **why** (purpose) and **for who** (the target)? On the 20 Nov 2020.
3. Please, do follow the guideline for creating a good web pages.
4. Choose a website of your choice that you will develop and apply the skills acquired from chapter 1-8 and 10.
5. Design a storyboard for your web site and include it on the PowerPoint slides.
6. Pages should be linked to one another.
7. A page should contain at least one of the following: table, form, multimedia, animation, and JavaScript.
8. Prepare a short PowerPoint presentation explaining your website (Please email to the lecturer a day before presentation).
9. Presentation should be for 10 mins, otherwise you will be penalised
10. You are welcome to use other languages on top of HTML, CSS, and JavaScript.

All projects will be presented on before the end of the semester, thus date to be discussed. If there are any changes, it will be communicated.

Keep it short and simple with the assumption that the project is for a small enterprise
